

54. (New) The mirror assembly of claim 53 further comprising a cantilevered member projecting from one of the first and second walls, the other wall being pivotable with respect to the cantilevered member.

55. (New) The mirror assembly of claim 54 further comprising a retention member operatively connected to the second wall, the retention member opposing displacement of the second wall with respect to the first wall.

56. (New) The mirror assembly of claim 52 wherein the at least one reflective element is formed of a material selected from the group consisting of plastic, glass, and combinations thereof.

#### **REMARKS**

Claims 1-51 are pending.

Claim 1-13 have been canceled, without prejudice.

Claims 52-56 have been added. Support for these claims can be found throughout the specification, claims and drawings, as originally filed.

The specification has been amended to include a reference to a related patent application.

Applicant respectfully requests entry of the above amendments. Applicant submits that no new matter has been added. Applicant respectfully submits that the application is in condition for substantive examination, and such examination is respectfully requested, and that the claim amendments are requested to more particularly characterize the invention.

Respectfully submitted,

WARN, BURGESS & HOFFMANN, P.C.  
Attorneys for Applicant(s)
